The young tailor is very popular in the colony, and had it not been for the arrival of the police it is probable that the girl would have been lynched. The excited Italians gathered about her and made ugly threats and menacing gestures.

When taken to the station-house, she declared that Juliano wanted her to poison her husband with the contents of a vial he gave her, and marry him. She scorned his proposition, she says, and Juliano thereupon attempted to assault her.
